

  has been  closed because of  coronavirus.

 is  not  spreading as  fast as it was.

 Soon it will be  safe  to go  back to  school, but it will be

 important to follow the  rules our  teacher  gives us.

When  I  go back to  school it will be  different from how it was

 
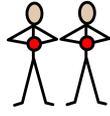

before.

 The classrooms will  look  different to what they were   before.

 There will not be  as many  children in the  classroom  and the

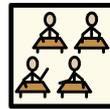

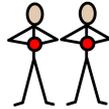

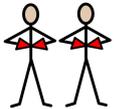

tables will not be close together.

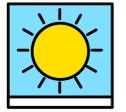

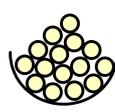

We will not be using our cloakrooms or lockers.

I will keep my coat and bag on a chair at my table

and we will have dinner in our classrooms.

We will have to wash our hands lots of times during the day

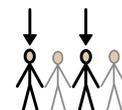

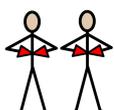

and when we do, we have to make sure that we do it for

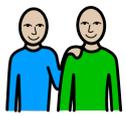

20

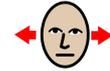

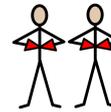

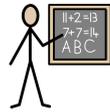

seconds.

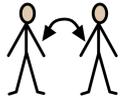

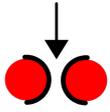

When we go back to school we will see some of our

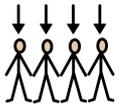

+

friends and our teacher, but it is important that we don't get

to to close to each other.

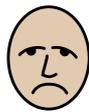

+

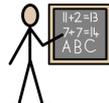

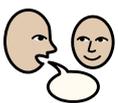

This is to keep everyone safe and well.

It is good that we can go back to school.

If I am worried or sad about going back to school I can

talk to my parents/carers, my teacher or other adults in school.
