

ST. BERNADETTE'S

CATHOLIC PRIMARY VOLUNTARY ACADEMY

Policy Statement

We are St. Bernadette's Catholic Primary Voluntary Academy, part of the Our Lady of Lourdes Catholic Multi-Academy Trust. During an individual's time with us, we will use information that we gather in relation to them for various purposes. Information that we hold in relation to individuals is known as their "personal data". This will include data that we obtain from the individual directly and data about the individual that we obtain from other people and organisations. We might also need to continue to hold an individual's personal data for a period of time after they have left the school. Anything that we do with an individual's personal data is known as "processing".

This document sets out what personal data we will hold about our workforce, why we process that data, who we share this information with, and the rights of individuals in relation to their personal data processed by us.

What information do we process in relation to our workforce?

We will collect, hold, share or otherwise use the following information about our workforce:

- Personal information (such as name, address, home and mobile numbers, personal email address, employee or teacher number, national insurance number, and emergency contact details).
- Contract information (such as start dates, hours worked, post, roles and salary information, bank/building society details), employment history.
- Work absence information (such as number of absences and reasons (including information regarding physical and/or mental health), holiday records).
- Qualifications / training courses attended and, where relevant, subjects taught (such as training record).

- Performance information (such as appraisals and performance reviews, performance measures including performance management/improvement plans, disciplinary or grievance records).
- Other information (such as pension arrangements (and all information included in these necessary to administer them), information in applications made for other posts within the Trust, details in references the school receives or provides to other organisations, CCTV footage and images).

We will also use special categories of data such as gender, age, ethnic group, religious or similar beliefs, next of kin, trade union membership, information about declared medical conditions/disabilities, genetic information and biometric data, data connected to Disclosure and Barring including disqualification by association. These types of personal data are subject to additional requirements.

Where do we get information from about our workforce?

A lot of the information we have about our workforce comes from the individuals themselves. However, we may also obtain information from tax and regulatory authorities such as HMRC, previous employers, your trade union, the DBS, our insurance benefit administrators, consultants and other professionals we may engage, recruitment or vetting agencies, other members of staff, students or their parents, and publicly available resources including online sources. In addition, we may obtain information from automated monitoring of our websites and other technical systems such as our computer networks and systems, CCTV and access control systems, communications systems, remote access systems, email and instant messaging systems, intranet and internet facilities, telephones, voicemail and mobile phone records, external payroll providers, Occupational Health providers, Local Authorities.

Why do we use this information?

We will process the personal data of our workforce for the following reasons:

1. Where we are required by law, including:
 - To comply with the law regarding data sharing (see further below)
 - To comply with specific employment law requirements, including our obligations as an employer under employment protection and health and safety legislation, and under statutory codes of practice such as those issued by ACAS, Safeguarding, TUPE
 - To comply with legal requirements in relation to equalities and non-discrimination
 - Public Interest/Exercise of Authority (Article 6 GDPR), Archiving, Statistics and Historical Research

2. Where we are required by any contract with our workforce, such as employment contracts, including:
 - To make payments to our workforce, such as salary payments
 - To deduct tax and National Insurance contributions and any other deductions
 - To make a decision about recruitment
 - To check individuals are legally entitled to work in the UK

 - Community Rent
 - Trade Unions
 - Attachments to Earnings
 - Credit Unions
3. Where the law otherwise allows us to process the personal data, or we are carrying out a task in the public interest, including:
 - To enable the development of a comprehensive picture of the workforce and how it is deployed, including financial modelling.
 - To inform the development of recruitment and retention policies and support career development and succession planning.
 - To safeguard our pupils and other individuals.
 - To ensure safe working practices.
 - In the interests of ensuring equal opportunities and treatment, including staff welfare and support with disability.
 - Keep in contact with staff including taking appropriate action in the event of a critical incident.
 - To protect our property and assets and to detect and prevent crime.
4. Where we otherwise have the consent of the individual
5. Where data sharing is required under the lawful basis of Recognised Legitimate Interests; where processing is necessary for legitimate reasons other than performing our tasks as a public authority e.g. requests from the police.

Whilst the majority of processing of personal data of our workforce will not require consent, we will inform individuals if their consent is required and seek that consent before any processing

takes place. Due to the imbalance of power in an employee to employer relationship, it is generally thought that although consent may be implied it cannot truly be freely given. So consent is not necessarily the most appropriate basis to rely upon as an employer.

Why do we use special category personal data?

We may process special category personal data of our workforce for the following reasons:

1. To carry out our legal obligations in relation to employment law, where this is in accordance with our Data Protection Policy
2. Where the processing is necessary for reasons of substantial public interest, including for purposes of equality of opportunity and treatment, where this is in accordance with our Data Protection Policy.
3. For the purposes of preventative or occupational medicine to assess an individual's working capacity and/or the need for reasonable adjustments.
4. Where we otherwise have an individual's explicit written consent – subject to the restriction set out above on the use of consent in an employment relationship.

There may also be circumstances where we need to use your information in relation to legal claims, or to protect your vital interests and where you are unable to provide your consent.

Failure to provide this information.

If our workforce fails to provide information to us then this may result in us being unable to perform the employment contract, or we may be prevented from complying with our legal obligations.

How long will we hold information in relation to our workforce?

We will hold information relating to our workforce only for as long as necessary. How long we need to hold on to any information will depend on the type of information. For further detail please see our Retention and Destruction Policy.

AI

Artificial Intelligence (AI)

Artificial Intelligence (AI) may be used to reduce workload and streamline processes, enabling staff to focus on core functions. Decisions, particularly those impacting students or staff, will always rest with human professionals. We are dedicated to safeguarding personal and sensitive information, ensuring that all AI systems used within our Trust comply with data protection laws and uphold the highest standards of privacy. We will apply AI with a strong ethical framework, ensuring fairness, transparency, and integrity in all applications.

An AI Charter has been developed to ensure AI is used ethically and in line with all other Trust Policies and statutory guidance.
